Horizon Choice Board

Students should choose at least one activity from their grade level to complete each week.

1st grade	2nd grade	3rd grade	4th grade	5th grade
Choose a book to read (or think of your favorite book). Use one of the apps on your iPad to tell someone about the story in a creative way. For example, use the Sock Puppets app to re-tell the story, or use a drawing app to draw your favorite part. Use your imagination and the sky's the limit! Become an inventor! Can you think of a new invention idea? Use the SeeSaw app to upload a selfie video or a drawing post with sound to tell about your invention. What does it do? Why do people need it? How did you think of it? Do you think you can really create it? How?	Become an inventor! Can you think of a new invention idea? Use the SeeSaw app to upload a selfie video or a drawing post with sound to tell about your invention. What does it do? Why do people need it? How did you think of it? Do you think you can really create it? How?	Invention Intention! Think of something you wish you could invent. Why do you need this invention? What problem would it solve? Is it a realistic invention? What barriers stand in the way of creating this invention? Can you think of ways to get around them? Create a Google doc or Google Slides page to record answers to these questions and brainstorm ideas.	Invention Intention! Think of something you wish you could invent. Why do you need this invention? Think of an animal you would like to know more about. Use Kidtopia to find out facts about the animal. Then, draw a picture of the animal and use the Chatterpix app to make your animal "talk" about its facts!	Think of an animal you would like to know more about. Use Kidtopia to find out facts about the animal. Then, draw a picture of the animal and use the Chatterpix app to make your animal "talk" about its facts!	Create a fiction story with characters, setting, beginning, middle, end, and a problem/solution. Use a digital tool such as stop motion or animation to tell your story! You can use any type of materials including drawings, Legos, playdoh, or even humans! Try iKitMovie or qStop, Toonz, or any other animation app you might have used on other projects.
